# **DETAILED ACTION**

## Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on June 18, 2003 has been entered.

## Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 31-33 are rejected under 35 U.S.C. 102(e) as being anticipated by Uzawa (6,342,942).

Application/Control Number: 09/668,064

Art Unit: 2851

Uzawa discloses in Figures 2 and 3, an exposure method, a device manufacturing method and exposure apparatus including first plural shot processes to be made to a substrate and a second shot process to be made to the substrate after completion of the first shot processes with a first step for determining the processing order in a first sample shot process, and a second step for determining the processing order in a second sample shot process to be made after the first sample shot process; wherein the determination is made under a condition that an interval between a shot to be processed last in the first sample shot process and a shot to be processed first in the second sample shot process is shortened. In Uzawa, the order of exposure process is shown with solid arrows in Fig. 2 is the first shot process and the order of exposure process shown with sold arrows in Fig. 3 is the second shot process, and the processing order of the shots are determined in which the distance between two shots to be processed consecutively by the first and second processes, respectively.

## Allowable Subject Matter

Claims 1-30 are allowed.

None of the prior art of record teaches or discloses determining the processing order in the first and second sample shot processes so as to shorten the interval between the last shot of the first sample shot process and the first shot of the second sample shot process. Also, none of the prior art of record teaches or discloses determining the processing order in the sample shot process and the exposure process so as to shorten the interval between the last shot in the sample shot process and the first shot in the exposure process.

Art Unit: 2851

# Remarks

Unlike claims 1-30, claims 31-33 make no distinction between exposure process and the sample shot process.

#### Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter Kim whose telephone number is (703) 305-0105. The examiner can normally be reached on Monday-Thursday from 8:30 AM to 6:00 PM. The examiner can also be reached on alternate Fridays during the same hours.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Russ Adams can be reached on 703 308 2847. The fax phone numbers for the organization where this application or proceeding is assigned is 703 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703 306- 3431.
